

Etsy, Local Artists, and Technology

Etsy is an e-commerce website that features handmade and vintage arts and crafts. Join representatives from Etsy as they showcase local Etsy artists Ethically Engineered, Le Papier Studio, Mojo Spa Style, and SecretSafeBooks. Learn how they use technology in their work and how they have grown their businesses online. Explore the creative process with the artists and hear about their struggles and achievements. A Q&A session will follow the discussion.

Saturday, January 28, 2:00 p.m.

Ethically Engineered

Jack Nugent credits his Depression-era grandmother with inspiring him to find ways to reduce consumption and work together for common goals. His soaps, shampoos, and balms are all vegan products made from organic, sustainable sources.

Le Papier Studio

Vana Chupp has always been artistically inspired by the sweet and simple moments in life. Her craft was born when she began documenting her young son's milestones in silhouettes. Now she offers a wide range of printed pieces, including custom silhouettes.

Mojo Spa Style

Amanda Kezios has spent much of her life in Europe, giving her designs a unique flair. Her handmade handbags, evening purses, and accessories are inspired by French romantic design, couture fashion, shabby chic, and nature.

SecretSafeBooks

Kara Witham created SecretSafeBooks when she combined a BFA in painting and drawing with a desire to create artwork that could actually be handled. Her hollowed-out books can hold keys, jewelry, love letters—or even a hip flask.
