Symantec's Norton SystemWorks™ 3.0 for Macintosh® is the smartest way to solve computer problems. Norton AntiVirus™ 9.0 for Macintosh, the world's most trusted antivirus solution for Macintosh systems,* removes viruses automatically —without interrupting your work. Now it also detects PC viruses. Norton Utilities™ 8.0 for Macintosh finds and repairs disk problems, helps you recover files, and improves hard drive performance. Dantz Retrospect® Express Backup lets you quickly and easily back up your files. And Aladdin Spring Cleaning® safely and completely uninstalls unneeded programs. Protect your computer from dangerous viruses and keep it running smoothly with Norton SystemWorks. For small businesses, 5- and 10-user packs are also available.
